Dear Friends,

Greetings to our ever-expanding family from all of us at SOS Children's Villages Pakistan. This year marks a very special occasion for us - we are celebrating the completion of 50 years since our first tentative steps on what has been a joyous and rewarding journey. At that time we had no way of knowing what the future held for us but of one thing we were certain. If we succeeded in our dream of establishing 'loving homes' for the orphans we were certain of a good response from our people. We were not wrong.

From the pilot project, opened in Lahore, we have grown to 64 projects, nationwide! I cannot thank you enough. Without your trust in us, without your support, none of this would have been possible. With your help, we are reaching for the stars. The generosity of our people is widely acknowledged, as is the desire to improve the human condition. Along with this altruism I must also give credit to our coworkers, especially the 'mothers', who work diligently to care for these vulnerable children. But even more than them, to our dedicated volunteers who serve on the managing committees for each project. They ensure that our policies are understood and implemented and encourage the support of the local communities. They are, without any doubt, our 'secret weapon'. I am humbled by the dedicated, experienced, high calibre individuals who join us to give back to society.

Without this help it would not be possible to ensure standards of excellence. This is true, not only of our organisation, but also of many other non-profit entities who benefit from this goodwill, so we can claim to be world leaders at least in this respect. As we enter the next half-century we pledge our relentless efforts to continue our pursuit of providing the best possible care for orphans in need, knowing you will be with us and willing us on. An important point to note.

Although we are part of the world's largest child care charity - SOS Children's Villages International, operating in 134 countries - we are entirely self-financed and were, in fact, the very first country to commit to this from our inception, and achieve it. Another feather in our cap!

We have interesting and appropriate programmes planned for the celebration of our golden jubilee. Among the events planned are the official function in April, to which we have invited the SOS International President Dereje Wordofa, a revival of the popular SOS Walk, concerts, children's festival, benefit polo and golf tournaments. We hope it will be possible for some of you to participate and join us in our festivities as we proudly showcase our achievements.

This year my newsletter will be presented in a different format. Rather than the customary reports from each facility I will project our achievements over each decade, to highlight the exponential growth we have been able to achieve. Also included will be an introduction to some of our high achievers.

After all, they are the real proof of our success, and we are so proud of all who took advantage of the chance we were able to give them. Thousands of children have passed through our hands and we share with you the joy of transforming lives.

Once again my sincere gratitude for making SOS a resounding success story, for making all our efforts worthwhile and for giving the gift of hope to those who deserve it the most. I look forward to your continuing support.

With best wishes to all of you for a happy New Year and a prosperous 2025.
